

DuPont™ RelyOn™ Antiseptic Hand Wash Products

- Kills 99.99% of germs
- Available as personal-sized spray bottles, canisters of wipes, individual wipes, and as wall mounted dispensers (automatic or manual)
- Formulated with skin softeners for frequent use
- Liquid formulation leaves no sticky residue
- Convenient, easy-to-use

Product

RelyOn™ Antiseptic hand wash products are based on a proprietary (patented) formulation that contains a skin-softening ingredient to help protect hands from drying. Wipes and spray do not contain phenols, bleach, chlorhexidine, formaldehyde, quaternary ammonium salts (quats) or glutaraldehyde.

Select from a 2 oz personal-size spray bottle, individual hand wipes, 160-count canister of hand wipes, or a wall mounted dispenser.

The personal-size hand spray and individual hand wipes may be conveniently carried in your pocket. Based on external comparative testing with a 2 oz. gel, the DuPont™ RelyOn™ 2 oz hand spray provides twice the number of applications.

RelyOn™ Antiseptic Hand Wipe Canisters can be easily mounted on the wall with the RelyOn™ wall bracket. This provides a convenient way to offer antiseptic wipes without losing counter space.

RelyOn™ Hand Antiseptic Dispensers are wall mounted units, either hands free or manual. RelyOn™ dispensers allow for a convenient and cost effective delivery of antiseptic solution. Each dispenser holds 1000 ml of RelyOn™ Antiseptic Solution, which unlike foam or gel products will not clog the dispenser nozzle.
